

MUHAMMAD SAIFULLAH

Full-Stack Developer

Chakwal, Pakistan | +92 313 5547972 | msaifullahawan2004@gmail.com

ABOUT ME

Full-Stack Developer (MERN Stack & PHP) with hands-on experience designing, developing, and deploying responsive, scalable, and user-friendly web applications. Proficient in React.js, Node.js, Express.js, JavaScript, HTML5, CSS3, and Tailwind CSS for front-end and back-end development, with strong skills in RESTful API design, database management (MySQL, MongoDB), and full-stack project architecture. Experienced in building admin dashboards, e-commerce platforms, and management systems with clean, efficient, and maintainable code. Skilled in client communication, requirement analysis, problem-solving, and agile collaboration, with a strong passion for continuous learning and adopting emerging technologies to deliver high-quality software solutions.

WORK EXPERIENCE

- Developed multiple full-stack web applications using the MERN stack and PHP for both practice and client-based projects.
- Built responsive, user-friendly interfaces using modern front-end technologies including React.js and Tailwind CSS.
- Designed and implemented RESTful APIs, server-side logic, and database integration using Node.js, Express.js, MySQL, and MongoDB.
- Collaborated directly with clients to gather requirements, scope features, and deliver customized web solutions on schedule.

PROJECTS

LandLens | *React, Django REST Framework, PostgreSQL, PostGIS, PyTorch, Mapbox GL JS, Google Gemini, Three.js*

- Developed a web-based platform that combines land boundary selection, site analysis, and automated floor plan generation in a unified environment.
- Enabled users to generate optimized architectural layouts and interactive 3D building models based on plot dimensions and room requirements while maintaining boundary compliance.
- Provided interactive geographic analysis and natural language-based location search to simplify planning and decision-making for users.

FootwearFrenzy - E-Commerce Website | *HTML, CSS, PHP, MySQL*

- Built a full-featured e-commerce web application with an administrator dashboard for managing products and orders.
- Designed a responsive user interface and implemented backend logic with full database integration.

Restaurant Website | *React.js, Node.js, Express.js, MongoDB*

- Created a dynamic restaurant web application featuring a modern UI and complete backend functionality.
- Developed RESTful APIs and integrated a database for efficient data handling.

EDUCATION

Bachelor of Science in Computer Science (BSCS)

2022 - 2026

University of Chakwal

TECHNICAL SKILLS

Frontend Development: HTML, CSS, Tailwind CSS, React.js, Responsive Design

Backend Development: Node.js, Express.js, PHP, RESTful API Design

Programming Languages: JavaScript, C++

Databases: MySQL, MongoDB

Core Competencies: Full-Stack Development, Database Integration
